

AIRPRO S

The AIRPRO S is a quiet, energy-efficient industrial ceiling fan, ideal for spaces up to 5 meters high. Its lightweight design allows for quick and easy installation, while its various power options and diameters (from 2.4 to 3 meters) adapt to a wide range of needs. With an airflow of up to 6,000 m³/min and coverage of up to 350 m², it offers an excellent balance of weight, efficiency, and performance.
